

REWIRE

CYBERSECURITY SKILLS ALLIANCE

**A New
Vision
for Europe**

ABOUT

The REWIRE Alliance represents more than 160 partners of the four pilot projects (i.e. SPARTA, ECHO, CONCORDIA, CyberSec4Europe), including big companies, SMEs, universities and cybersecurity research institutes, from 26 EU Member States.

The project aims to provide concrete recommendations and solutions that would lead to the reduction of skill gaps between industry requirements and sectoral training provision and contribute to support growth, innovation and competitiveness in the field of Cybersecurity.

The partnership objective is to work together for developing a new sectoral strategic approach to cooperate on cybersecurity skills, and support a better matching between skill needs of the market and skills provided by the relevant education and training organisations.

- 1 EUROPEAN CYBERSECURITY BLUEPRINT**
addressing skills gaps in the cybersecurity sector.
- 2 CYBERRANGE PLATFORM**
based on open-source components with specific elements and features.
- 3 CERTIFICATION SCHEMES**
implemented covering specific areas of cybersecurity and following international best practices.
- 4 CyberABILITY**
A digital on-line publicly accessible European Cybersecurity Skills Digital Observatory which will provide up-to-date information regarding the job market, competences, training courses, certification schemes and a career roadmap.
- 5 ONLINE COURSES**
trainings and relevant certification schemes on selected occupational profiles offered in the form of four (4) VOOCs.
